

NO BULL COOLERS

No Bull Coolers are a great way to keep your beer icy cold with their special cooling insulation, and support your Rugby League team. All creations, from Australian designer Aaron Jackson, are handmade and help the environment by using recycled scrap metal. There are rear wheels to help you move your bull around, plus a handy bottle opener in the, well, err, rear. They love being outside and can handle all weather. A little bit of aging enhances their look. They are also a great talking point as you cook the barbie and when you are over telling your guests what a fine BBQ chef you are, you can brag of the imminent

greatness of your Rugby League team.

CELEBRATE
YOUR TEAM
WITH
AN
ICY COLD
BEER!
