

THINK OUTSIDE, A GARDEN DÉCOR COMPANY

known Australia-wide for its distinctive designs and exquisite craftsmanship, continues to go from strength to strength with the recent addition of a second workshop in Vietnam. Staffed by highly skilled local artisans, the Vietnamese workshops, which are 100 per cent owned and operated by Think Outside, give form to the unique designs of company founder, Aaron Jackson.

Combining great design and high quality with socially and environmentally conscious practices, Think Outside's extensive product range appeals to all walks of life and can be found in a wide array of environments — from homes to businesses — right around the country.

One of the most popular ranges to be released by Think Outside is the ee-i-ee-i-o range of novelty farmyard sculptures. Handmade from unwanted 44-gallon drums, each unique sculpture is full of charm and makes an excellent backyard companion. New-season additions to the coveted collection include Henry the Horse plus Billy the Goat.

If you're drawn to sculpture of more refined form, one of Aaron's newest offerings — a pair of beautiful Australian cockatoos — should prove ideal. Made in Aaron's inimitable, highly original style,

the stunning duo comes mounted on a hardwood post and is sure to be a talking point in gardens all around Australia.

Building on its already comprehensive product range, Think Outside recently took an exciting new direction with the launch of a unique outdoor furniture collection, the Industrial Series. Of high quality yet priced to be affordable, it is yet another example of Aaron's endless creativity. The Industrial Series, which comprises two ranges — Tapered Leg and Reverse V — is made using African Mahogany (Sapelli), a dense and durable timber with reddish brown tones that is sourced from FSC-certified sustainably managed forests, and strong mild-steel frames. These frames are powder-coated and then finished with two-part polyurethane paint for added longevity.

The Industrial Series is a welcome addition to Think Outside's ever-increasing product range and is another example of why, under Aaron's guiding hand, Think Outside is a leader in the realm of outdoor décor and accessories. The Think Outside product range is available Australia-wide from selected garden centres, homeware and gift stores, nurseries and hardware stores.
